

April 15, 2010

Traugott building Contractors Inc. considers Health and Safety of primary importance and recognizes the right of every worker to work in a safe and healthy environment. We will operate in a manner that promotes and protects a fair and equitable atmosphere for all staff, employees and guests.

In carrying out this commitment Traugott Building Contractors Inc. will:

- Develop and implement effective policies, practices, procedures and programs, which work in concert towards the creation of a safety culture conducive to the well being of all parties.
- Re-assess and re-evaluate occupational health and safety polices, practices, procedures and programs on a regular basis.
- Take every precaution reasonable to ensure our work does not present a risk of injury or illness to the our employees, clients, guests and the public.
- Take every precaution to preserve and protect natural environmental and ecological systems in compliance with the latest legislation.
- Monitor legislative changes and provide managers, supervisors and workers with the latest in legislative materials and support.
- Educate staff and employees in their health, safety and environmental responsibilities and known hazards and safe work practices associated with their respective duties.

All employees and employers of sub-contractors are responsible for performing their duties in a manner, which protects themselves, their fellow workers, our clients and the physical assets of Traugott Building Contractors Inc.

Traugott Building Contractors
